Parent Call for Action:

Family Resource Programs and Child Care are *Essential* for all Families.

"Do NOT CUT any $$$s from **Children's Services!"**

The following cuts are being suggested in KPMG's Core Service Review:

- cut funding for family resource programs, pay equity and special needs resource consultants
- cut city payments to school boards for child care rents
- divest 57 municipal child care centres to the private sector
- cut over 2,000 fee subsidies and quality inspections
- cut per diem rates paid to child care for city subsidies

Family Supports Institute Ontario

Advancing the well being of families

This would mean:

- Local drop-in programs across the city closed
- Program staff wages cut
- Special needs resource consultants services cut
- Loss of capacity in childcare
- Reduction in quality of childcare
- Loss of support services for all families across Toronto
